DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 2, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

In claim 1 it is unclear what is being referred to by "it" in line 4. For this office action "it" will be interpreted as being the cable.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3682

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Boissevain et al (US 3,779,003).

Boissevain et al disclose a cable guiding device comprising: a chain (21), a cable (29), and a support (33), which intersects the chain to support the cable and formed so that the cable is flexed in the longitudinal direction of the cable (see Figs 1 and 3).

Re claim 2, the support is composed of an elastomer containing a rubber and a thermoplastic elastomer (col. 1 lines 5-56).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
